Narrated by Academy Award winners Sissy Spacek and Herbie Hancock, ***River of Gold*** is the disturbing account of a clandestine journey bearing witness to the apocalyptic destruction of the rainforest in the pursuit of illegally mined gold. Peruvian environmental activist and biologist, Enrique Ortiz, guides the team, pointing out the heedless exploitation of the land for minor gain. **Entry is free, but seating is on a first-come, first-served basis.**

The screening is organised with Ciné-ONU Geneva and UN Environment, with the support of Amazon Aid Foundation, on the occasion of World Environment Day.
