

Final Lyrics

Anthem for the Amazon

Date: Nov. 6, 2014

Verse 1:

Do you believe she connects everything?

The brightest skies, the birds and trees

Her breath it is what keeps us alive

And now she's hurting can you help us make her stronger?

First Pre-Chorus:

We gotta care for the world we see

She's gotta breathe

We gotta take responsibility

She's gotta breathe

Chorus:

Breathing life into our world

(World)

(World)

Breathing life into our world

(World)

(World)

What will we/you see in just a few years?

Each and everyday nature disappears

Beyond the mountains the air is heavy

The pressure's growing and we can't wait any longer

Now she's hurting and we gotta make her stronger

Second Pre-Chorus:

We gotta care for the world we see

She's gotta breathe

She's so precious we all have to believe

She's gotta breathe

Breathing life into our

Chorus:

Breathing life into our world

(World)

(World)

Breathing life into our world

(World)

(World)

Post Chorus:

Open up your heart now and give

What you wanna give

Planting the seeds of the world

REVISED RAP FOR KIDS:

Rapper #1: What do you think about all this destruction?

Rapper #2: I don't know does it even effect me?

Rapper #1: I know it's hard to believe that cuttin' down tree effects the water and the air that we breathe

Rapper #2: But when I look around everything looks fine?

Rapper #1: You may think so but it's just a matter of time that there is no solution for the pollution, overusing, abusing the natural resources that we're losin'.

RAP AFTER SPANISH RAPPER:

Imagine a world with clean air (World)

Ozone gap close up we don't fear (World)

She brings life to all things

You and me see we gotta believe

Each one of us yeah we can make a change

No need to point fingers no need to point blame

One seed

One tree

One life

Breathe
